

TIME HERE TO CAN PEACHES

Late Crop Is Reported as Being Scarce.

TOMATO PRICES ADVANCE

SHELL AND EXTRA SELECT OYSTERS ON MARKET.

Peaches have reached their lowest price, and the dealers say it is the best time for housewives to preserve and bottle the fruit. Alberta peaches were quoted yesterday at two pounds for 15 cents, and orange peaches sold for 19 cents a pound. At present there are plenty on the market to supply the demand, but reports are current that the late crop of peaches is short. Shipments of both varieties come in daily from Moab via rail and also from the northern part of the state. As soon as the late peaches begin coming in a considerable number of dealers say the prices will advance.

Extra select oysters are now selling for \$1.50 a bushel, but from the fact that the price will be advanced to \$2 a bushel, the shippers have been warned about picking the tomatoes off the blighted vines, for several cases of poisoning have resulted from persons eating the tomatoes. The supply is about all gone, and the supply is dropping off fast.

Blue points, New York counts and extra select oysters were on the market yesterday. Blue points were quoted at \$2 a hundred, wholesale, and New York counts, \$1.50 a hundred. The extra select oysters sold for \$2.50 a bushel, and were retailed at 60 cents a quart. The demand is heavy for this season, and the dealers have enough to supply their customers.

IN THE COURTS.

Sheriff Emery was ordered yesterday to produce J. M. Shockey in Judge Armstrong's court room at 10 o'clock next Monday morning, in a case of \$2500. The plaintiff is the owner of a two-story car men will begin.

Judge Armstrong yesterday denied an application for a writ of habeas corpus for Bertie Thomas, who is accused of grand larceny in a complaint sworn to by S. Crawford. The application was based on an alleged insufficiency of evidence.

John W. Fenton yesterday filed an action against Joseph M. Jensen to secure possession of a deed to 229 rods in block plat A, and to clear title to the property. It is alleged that the deed was given to guarantee the performance of a lease on a bank of Jensen.

Almon W. Bulkey and Mortimer H. Boutelle, attorneys of Chicago, yesterday filed an action for the amount of \$22,600 against the Gold & Copper company of Birmingham. Of the amount \$15,000 is alleged to be due for professional services during the past three years, \$15,000 is claimed for salaries, and \$2,600 is claimed for money advanced by the company.

Following the denial by the supreme court of Mrs. Emily P. Raleigh's petition for a rehearing, the circuit court yesterday granted a motion for an order of restitution placing the defendants, Catherine C. E. Wells and others, in possession of the property in question. This is the first time in the case wherein Mrs. Raleigh, a polygamist wife of the late Bishop A. H. Raleigh, sought to retain possession of the home she has occupied for forty-six years.

"Extracted from the high court of Justice District Registry at Bismarck, as a station made clear, a copy of the last will and testament of Mrs. Rebecca Bews, was yesterday filed as an exhibit in a petition for probate in the county clerk's office. The transcript was made in the county and, with its huge, red seals and quaint appearance, was something of a curiosity. Mrs. Bews died July 28, at Laramie, in Wyoming. One of her heirs is a son, Henry Bews of White Plains, Utah county, Nevada. Part of the estate consists of \$2,000 deposited in a Salt Lake city bank.

It costs you no more to buy Royal Bread. Our crown label on every loaf stands for quality and purity. At all grocers.

From Sept. 15 to Oct. 31 the Salt Lake Route offers extremely low excursion rates one way. Salt Lake to Los Angeles for \$25. Stopovers allowed California and Las Vegas.

Persons contemplating going to the Pacific coast to settle should bear this in mind as it is the lowest rate ever offered.

See any agent of the San Pedro, Los Angeles & Salt Lake railroad.

EXCURSION TO MANTI,
Via D. & R. G. Sept. 9th.

Leave Salt Lake 8 a. m. Returning leave Manti 1:10 p. m. Sept. 10. Fare \$2.50 round trip. Everybody invited.

JUVENILE COURT FOR JAP
Judge Diehl Has No Jurisdiction Over W. S. Yamamoto, Charged With Serious Offense.

When the case of W. S. Yamamoto, a Jap, 17 years of age, charged with assault with a deadly weapon, was called in the city court yesterday morning, Judge O. W. Powers, attorney for the defendant, raised an objection alleging that the defendant was under age and not within the jurisdiction of the court. After this fact was established, Judge C. B. Diehl made an order transferring the case to Judge Willie Brown of the juvenile court. Then Judge Powers raised an objection to the order, on the grounds that Judge Diehl did not have jurisdiction in the matter and therefore could not lawfully make such an order. The objection was overruled by the court and the papers will go to the juvenile court. It is understood that the defendant, while Judge Brown is in Chicago, Judge Powers may take steps to secure the release of his client.

OUTST THE DEMON
A Tussle With Coffee.

There is something fairly diabolical in the way coffee sometimes wrecks its fiendish malice on those who use it. A lady writing from California says: "My husband and I, both lovers of coffee, suffered for some time from a very annoying form of nervousness, accompanied by most frightful headaches. In any other case there was eventually developed some sort of affection of the nerves leading from the spine to the head."

"I was unable to hold my head up straight, the tension of the nerves drew it to one side, causing me the most intense pain. We got no relief from medicine, and were puzzled as to what caused the trouble. Till a friend suggested that possibly the coffee we drank had something to do with it, and advised that we quit it and try Postum Coffee."

"We followed his advice, and from the day that we began to use Postum we both began to improve. In a very short time both of us were entirely relieved. The nerves became steady once more, the headaches ceased, the tension of the muscles of my neck relaxed, my head straightened up and the dreadful pain that had so punished me while I used the old kind of coffee vanished."

"We have never resumed the use of the old coffee, but rather our Postum every day as well as our favorite beverage. And we are delighted to find that we can give it freely to our children also, something we never dared to do with the old kind of coffee." Name given by Postum Co., Battle Creek, Mich.

Postum Coffee contains absolutely no drugs of any kind, but relieves the coffee drinker from the old drug poison. There's a reason.

RY'S HOUSE FOR HOUSE AS SCHOOL

Board of Education Takes Several Steps to Relieve Congestion.

JANITORS CHOSEN FOR YEAR

PREPARATIONS MADE TO START WORK MONDAY.

For the purpose of caring for the pupils in Lake Breeze district, the board of education at its meeting yesterday forenoon appropriated \$1200 to purchase from Alice and Frederick De Weir, lots 19 and 20, block 3, Lake Breeze addition, with its improvements. The site bears an eight-room brick house, which will be remodeled into a two-room school building before school opens. An appropriation of \$10 was voted to defray the cost of the changes. It is expected that this building will care for the pupils of the district. Other pupils will be sent to different schools. In accordance with a general shifting plan outlined in The Herald a few days ago.

The board authorized the committee on buildings and grounds to secure a room near the present school for manual training purposes and approved the committee's action in vacating the Bonnevillie annex.

It was decided to place two additional kindergarten rooms in the Franklin school buildings and to use the large north room in the Union school building for manual training in the high school. Provision was also made for the securing of additional room at the Franklin for manual training.

The committee on buildings and grounds was authorized to employ an architect to draw plans and supervise the erection of the proposed building. The committee also authorized the board to advertise for bids for furnishing coal during the school year. Bids will be opened at 10 o'clock on Oct. 1.

The action of the committee in not purchasing the Elyer property, because of insufficient guarantee, was approved.

Janitors Are Chosen.

The board was in executive session during the greater part of the two hours and thirty minutes the session was held. The list of janitors was announced as follows: John Sundstrom, school, \$105; W. J. Coppins, Science building, \$85; Leonard Lundstrom, Bryant, \$85; Peter Ohlin, Bonnevillie school, \$85; Emerson, \$85; Thomas Jones, Franklin, \$85; Charles Fletcher, Fremont, \$75; Charles McPhie, Grant, \$85; William Waterfall, Hamilton, \$85; William Leathman, Jackson, \$85; Elton Perry, Jordan, \$85; William Graham, Lafayette, \$120; Thomas Leslie, Lincoln, \$85; J. R. Rugg, \$85; John A. Williamson, Riverside, \$85; Robert M. Brown, \$85; Charles Hill, Twelfth, \$75; W. W. Phillips, Union, four months, \$80; eight months, \$100; four months, \$100; Joseph Durbidge, Washington, \$85; George McDonald, Weber, \$85; Andrew Don, Longfellow, \$10; Pauline Broman, board rooms, \$85.

The monthly appropriation list, amounting to \$12,538.15, was passed.

Teachers Still Unassigned.

The assignment of teachers was discussed informally, but the lists will not be given out until the week of the board, which will probably be within a day or two.

On the subject of the City Superintendent D. H. Christensen, Elsie Butts, Marion Van Cott and H. W. Ashton were released from their contracts. Mr. Ashton was principal of the Utah school, which is closed this year. He will become supervisor of county schools. Una E. Rhinehart, Roy L. Louisa, Maude Harrold, Clara Latimer and Leona Miller were granted leave of absence for one year.

In the afternoon M. J. Cheesman, A. G. Glaugue, W. J. Newman, C. H. Christensen made a tour of the western part of the city to see whether the new ones just coming in. It is urged that all who intend to attend the institutions should register year by year on hand today to register. It will be greatly to their advantage to do so. By being enrolled and assigned to classes today or tomorrow at the latest they will be in a position to jump into class work Monday morning without the loss of an hour.

In the judgment of Principal Eaton the attendance at the West Side High school the coming year will be greater than the combined attendance at the two high schools last year. He expects the enrollment to run over 500. Others look for an enrollment of 1,000. The school will be crowded to its capacity. A requisition has been made for the basement floor of the Union school, and the outlook is that the requisition will be honored by the board of education.

With this room closed, Principal Eaton is of the opinion that the work can be handled without crowding. The teaching force of the East Side High school has been added to the West Side for the coming year, and this, it is thought, will be an advantage.

The registration and classification will continue today, beginning at 9 o'clock this morning with Principal George A. Eaton, Vice Principal L. M. Gilliam, Miss Ella M. Dukes, Miss Alice E. Rowe, Miss Anna E. Buchanan and Miss Ruby Armstrong on hand to look after the interests of the students.

RUSH IN COUNTY SCHOOLS.

Outlook Is That Not Less Than Six Thousand Pupils Will Be Enrolled.

Not less than 6,000 pupils will be enrolled in the county schools next Monday morning, according to the board of John W. Smith, county superintendent. Several new ideas will be put in force during the coming year, and Mr. Smith is of the opinion that the year will prove the most successful in the history of the county schools. The supervisors and several of the teachers are here at work in preparation for the opening.

Mr. Smith yesterday announced the list of county school supervisors as follows: B. W. Ashton, Granite district, with 26 teachers; Edwin S. Sheets, Farmers, with 27 teachers; Preston B. Richards, Sugar, East Mill Creek, Big Cottonwood, Little Cottonwood, 27 teachers; J. L. Goff, East Jordan, Union, Butler, with 27 teachers; C. E. Dandridge, West Jordan, with 8 teachers; John Hansen, Jr., Riverdale, South Jordan, Salt Lake, Crescent, Herriman, Granite, with 15 teachers; Joseph A. Ross, Sandy, with 15 teachers; James K. Hawkins, Draper, with 12 teachers.

These supervisors will occupy in the county schools the same relative position as the principals of the city schools. In making his assignment, Mr. Smith found that territorial considerations made it necessary to depart from his original plan to assign about fifteen teachers to each supervisor. The supervisors will hold weekly meetings to discuss their work.

Mr. Smith expects about 16 pupils in the fifth grade of a county school. In the fifth grade is a new idea this year and will give the pupils of the county schools a start in high school work. The ninth grade will be established at Lower Bingham, West Jordan, Sandy and Flake-Horse schools.

Teachers of the county schools will hold a meeting in the L. D. S. university at 11 o'clock next Saturday.

HEWLETT MADE MAYOR PRO TEM

President of the Council Wins Over E. H. Davis.

MORAN GETS A CONTRACT

HARD FIGHT FOR MORE WATER IN THE FIFTH WARD.

F. J. Hewlett, president of the council, was elected mayor pro tem to serve until Mayor R. P. Morris returns from California. Mr. Hewlett was placed in nomination by Tuddenham. Hobday nominated E. H. Davis and Neuhausen nominated Hobday, who made it reasonably clear that he did not want the job by saying "not by a darn sight, you don't." The vote resulted: For Hewlett-Barnes, Dean, Fernstrom, Hartenstein, Preece, Tuddenham, Wells, for Davis—Black, Hobday, Martin, Neuhausen, Hewlett—5; absent and not voting—A. J. Davis, E. H. Davis.

Moran Gets the Contract.

The board of public works reported the bid for construction of the Big Cottonwood conduit and copies of a contract with R. J. Moran, the lowest bidder. In the communication the board expressed a belief that the original bond of \$15,000 should be reduced to \$20,000. "In view of the well known character of the work heretofore constructed by Mr. Moran and his reputation for vigorously prosecuting any work required to be done by him in a week or ten days," the board recommended that the bond be approved by unanimous vote.

The recommendation of the special water committee that \$40,000 be appropriated for the water improvement fund to purchase 1,500 shares of stock of the East Jordan Canal company went over for a week or ten days.

G. H. Nichols advised the council that he would submit his new Liberty park pumping proposition at the next meeting.

The special water committee's recommendation that \$5,000 be appropriated to develop the flow of Emigration creek, in addition to about \$2,500 already in the treasury for that purpose, went over for a week on request of Neuhausen and Preece, over a strong protest by Tuddenham.

Neuhausen, Hobday and Wood voted against an appropriation of \$1,000 requested by the city engineer to install an emergency pumping plant to pump water from the bottom of the sump in Emigration canal. There were eleven votes in favor of the appropriation. Preece later gave notice that he would move a resolution.

On recommendation of the city engineer \$1,000 was appropriated to pay the city's share of the expense for operating the pumps at Utah lake for 1905, the month of September.

Black's resolution directing the superintendent of waterworks to replace the pipe taken up across Eighth East at Second and Third South at a cost of not to exceed \$400 was lost, 6 to 5. After they were taken up by Tuddenham to refer to the committee on waterworks with power to act on once they were defeated, 5 to 6.

Black contended that it was necessary to give residents of Eighth East and Second street water for domestic purposes. L. F. Zalk, assistant city engineer, explained that the mains were disconnected two years ago and said the re-establishment of connection there would simply drain the water from the higher levels, making the upper ones dry when the water supply is low. The matter was a long wrangle. The opponents of the resolution predicted an upset of the entire system if the council were made Black declared the council had denied to the people of the Fifth precinct a water supply at a cost of \$400 after spending \$12,000 for the benefit of the Third precinct. Barnes indignantly resented the reference to the Third and advised Black to "take his medicine" quietly.

Preece's resolution instructing the superintendent of streets to notify property owners whose fences extend beyond the property line on Second West street between Seventh South street and Eighth South street, and on the west side of Second West street from Fifth South street to Sixth South street, to move their fences back to the property line as

established by the city engineer, and instructing the superintendent to effect the removal if the property owners fail to comply, was passed by a vote of 8 to 5. Black, Hobday and Neuhausen voted against it and the Davies were absent. Black was in charge in his opposition to Dean's resolution, which appropriated \$1,000 to macadamize Second South street from Seventh West street to Ninth West street, and instructed the city engineer to furnish estimates for curbing and gutters.

Favor the Gravity Sewer.

Specifications of George W. Ritter, city engineer, for the extension of the gravity outlet sewer from State and Fifth South streets to Fourth East and Ninth South streets, were approved, and the board of public works was instructed to advertise for bids. The specifications are identical with those of the intercepting sewer, except that in this case concrete is the material to be used. Neuhausen voted against the specifications, the vote being 15 to 1.

The city recorder reported that \$18,875.55 collected in fines, forfeitures, licenses, etc., had been turned into the city treasury during the month of August.

Black, Hobday and Martin voted against a committee report which recommended the filing of the proposition of the White Cross Sanitarium company to erect a hospital for the city's patients. Eleven votes went in favor of shelving the proposition.

The petition of occupants of the ground floor of the McCormick building, asking that fruit and vegetable peddlers be compelled to keep their wares away from the south side of the building, was referred to the committee on streets and markets, with instructions to report next Monday night.

At War With Uncle Sam.

A communication from the acting secretary of the treasury, stating that the government would not pay the \$1,333 assessed against it for paying around the site of the city's patients. Eleven votes went in favor of shelving the proposition.

Tip Higgins asked to have remitted \$25 of the \$50 fine imposed on him in police court for keeping his saloon open on Sunday. In his statement Mr. Higgins said he pleaded guilty with the understanding that he would be fined only \$25, but to his surprise he was assessed \$50. The fine was reduced to \$25 by the court on motion of the prosecutor, who recommended that the council grant Mr. Higgins' request. It was granted by unanimous vote.

SAYS LIBRARY IS READY

John Q. Packard, Donor, Informs Mayor Morris He Is Prepared to Turn It Over.

John Q. Packard, donor of the new public library building, has written from Santa Cruz, Cal., to Mayor R. P. Morris, to announce that the building is now ready to turn over to the city. Mr. Packard refers briefly to the circumstances under which he tendered the gift and requests that some record such as a resolution of the city council be made of the transfer. He asks that the record show the acceptance of the building by the city, the acknowledgment of Mr. Packard's performance of his part of the agreement, and the assumption by the city of the continuous care and maintenance of the library.

The communication will probably not be acted upon until the mayor returns from California. He is expected to be back next Saturday.

The library building is finished and equipped with the exception of some metal lamp posts for the front port. In shipping these posts has made it impossible to get them in place. They will probably arrive within two weeks and will be placed in position under the direction of Fred A. Hale, the supervising architect of the building, without cost to the city.

ANIMAL SHOW COMING.

Seibel Brothers' Aggregation Exhibits Today.

Seibel brothers' trained animal show will be in Salt Lake today. The show will pitch its tents on the grounds at the corner of Eighth South and Main streets.

WILL YOU BE AT BRIGHAM September 7th?

There will be a special via the O. & N. at 8 a. m. that date, and the round trip is only \$1.25. Lots of free peaches and melons.

Gain Strength for Work

In office and factory, shop, store or kitchen girls are at work all over this land, and, alas! far beyond their strength.

Young women who work are especially liable to female ills. Too often the girl is the bread winner of the family and she must toil unremittently, no matter if her back does ache, her limbs and abdomen throb with dull pain and dragging sensations, and dizzy spells make her utterly unfit for work. These are the sure signs of female irregularities which kill beauty and youth.

Lydia E. Pinkham's Vegetable Compound

builds health and strength for all women who work and are weary. It creates the vitality that makes work easy. From the thousands of grateful letters written by working girls to Mrs. Pinkham we quote the following:

DEAR MRS. PINKHAM:—I feel it my duty to tell you the good Lydia E. Pinkham's Vegetable Compound and Blood Purifier have done for me. Before I took them I was very nervous, had dull headaches, pains in back, and months were irregular. I had been to several doctors and they did me no good.

Your medicine has made me well and strong. I can do most any kind of work without complaint, and my periods are all right.

I am in better health than I ever was, and I know it is all due to your remedies. I recommend your advice and medicine to all who suffer.

MISS ABBY F. BARROWS, Nelsonville, Athens Co., Ohio.

Oh, if American girls who work would only realize that they have but one life to live, and make the most of their precious health and strength! Mrs. Pinkham extends to every working girl who is in ill health a cordial invitation to write her for advice. Such letters are always kept strictly confidential, and from her vast experience Mrs. Pinkham probably has the very knowledge that will help you—and may save your life.

Lydia E. Pinkham's Vegetable Compound Cures Where Others Fail

Schlitz

The Beer That Made Milwaukee Famous.

Every bottle of Schlitz beer is sterilized after it is sealed.

The process takes ninety minutes; the cost is enormous. But the result is a germless beer—a beer that doesn't ferment on the stomach—a beer that preserves its quality—a beer absolutely pure.
